

# Max Nitro™

## Nitric Oxide Optimizer†

### Super Charged NO Formula†

### Feel the Pump!† • Feel the Growth!†

**MAX NITRO™** is a scientific breakthrough for supporting Nitric Oxide (NO) production. In the body NO is responsible for increasing blood flow to peripheral tissues; muscle pumps, erections, peristalsis, and even birth contractions. Production of NO occurs in the body using L-Arginine, L-Citrulline, NAD, and Oxygen.†

NO is a unique molecule involved in many body functions.

**MAX NITRO™** uses a truly unique molecule called L-Arginine Alpha Keto-Gluatarate (AAKG) to increase L-Arginine levels and in turn support NO production. What makes **MAX NITRO™** different from its competitors is the

AAKG, IT'S DOUBLE POTENT, carrying two L-Arginine molecules where others only have one! There is also L-Citrulline in the formula, the other amino acid responsible for the production of NO in the body. To actually produce NO you need Oxygen and NADPH. We added NAD because it is the precursor to NADPH, the energy source for the production of NO. **MAX NITRO™** provides all the necessary components to maximize your NO production. We even added a proprietary buffered sustained release delivery system. Phosphates assure rapid exit out of the stomach and into the intestine while at the same time buffering against stomach acid. Beta-Cyclodextrin is used to enhance absorption. Methocel™ is a unique delivery agent that helps sustain the delivery of AAKG over a longer period of time for maximum NO benefits.†

By supporting NO production, **MAX NITRO™** causes an influx of blood flow and nutrients for improved muscle pumps. By increasing the delivery of nutrients to the muscles your recovery and growth is supported. **MAX NITRO™** is a state of the art super charged supplement for maximum NO production. Combined with a smart nutrition and exercise plan **MAX NITRO™** will help you reach your physique goals.†

**Size:** 180 Tablets  
**Serving Size:** 3 Tablets  
**Servings Per Container:** 60

### KEY FEATURES

- Muscle Pump Support†
- Muscle Growth Support†
- Methocel™ Delivery System for enhanced assimilation†
- Double Strength AAKG†

### KEY MESSAGES

- Scientific breakthrough for supporting Nitric Oxide (NO) production.†
- Uses a truly unique molecule called L-Arginine Alpha Keto-Gluatarate (AAKG) to increase L-Arginine levels and in turn support NO production.†
- Our AAKG is double potent, carries two L-Arginine molecules, most formulas only carry one.†
- Contains L-Citrulline responsible for production of NO in the body.†
- Added NAD, precursor to NADPH, the energy source for NO production.†
- Proprietary buffered sustained release delivery system.
- Beta-Cyclodextrin used to enhance absorption.†
- Methocel™ unique delivery agent helps sustain delivery of AAKG over longer period of time.†
- Causes influx of blood flow and nutrients for improved muscle pumps.†
- State of the art super charged supplement for maximum NO production.†

### TARGET MARKET

**Primary:** Individuals looking to increase strength and muscular endurance.

**Secondary:** Individuals looking to improve blood flow to peripheral tissues in the body.

### RECOMMENDED STACK

- Full Blown Extreme
- Max Glutamine
- Max KreAlkalyln
- Max Pro / High 5
