

Max Tribustak

Male Hormone Support†

Testosterone Stimulator & Precursor†

If you are looking for one of the most potent Tribulus formulas available then **TribuStak** is for you. MMSN brings you an amazing Tribulus terrestris formula containing 500mg of Tribulus that delivers 100mg of Protodioscin and 100mg of Saponins/Sapogenins. Protodioscin is considered the active ingredient in Tribulus through the stimulation of Luteinizing Hormone in the body. Luteinizing Hormone affects the Leydig Cells of the testicles, responsible for production of testosterone. The data also suggest it is necessary to get adequate Protodioscin to have an affect. Based upon this information the scientists at MMSN went out and found the strongest Tribulus available with standardized levels of protodioscin. Unlike Tribustak, most Tribulus formulas contain insignificant amounts of Protodioscin. We also added in DHEA, a potent precursor to testosterone production. **TribuStak** supports your natural testosterone production with Protodioscin from Tribulus and provides the raw material to make the testosterone with DHEA. To cap it all off the **TribuStak** Proprietary Blend combines four herbs known for their ability to support male hormones. Vitex supports increased Luteinizing Hormone. Avena Sativa is a traditional nutritional for nourishing male reproductive organs. Epimedium has many actions on the male body including the support of sex drive and erectile function. Simple and strong, that's what **TribuStak** is all about. Try it for a month. We know you'll notice the difference in the gym, the mirror and the bedroom. Kick your testosterone and your workouts into high gear with Max Muscle **TribuStak!**†

Size: 90 Capsules
Serving Size: 2 Capsules
Servings Per Container: 45

KEY FEATURES

- Maximum Protodioscin Formula†
- Highest Potency Tribulus†
- Supports Libido & Sex Drive†

KEY MESSAGES

- Delivers high potency Tribulus with maximum Protodioscin levels†
- Supports natural testosterone production by elevating luteinizing hormone†
- Provides DHEA, the precursor to natural testosterone production†
- TribuStak blend for optimizing hormone production naturally†

TARGET MARKET

Primary: Bodybuilders and athletes seeking to maximize natural testosterone output.
